I read Ed Garland's and Mark Dortch's reviews on the mass balance appendix. Ed's is very thorough and technical, tough but constructive. Mark's is very good as well but not as thorough. I can imagine MPI will like to further discuss this w/them (and probably us too).

enjoy your weekend,
e

I created 2 folders on PREmis: One for our advisors' comments (Earl Hayter, Mark Dortch, Ed Garland, etc....) and one for comments from Remedial Options WG members.

You'll see them in the Digital Library, under Superfund and WRDA Project Deliverables/Draft FFS.

I just loaded 4 comment memos to the advisors' folder: Comments on Appendix G (Hayter, Blumberg) and comments on Appendix D (Dortch, Garland). Please let HQI and Ed Garvey know that these memos are there - HQI may already have both comment memos on App G, but they may want to double check that they have the correct version of Earl Hayter's (I seem to recall that he sent one memo some time ago, then discovered that he had not finished his review - but I can't find those e-mails, so I can't be sure). I know that Ed Garvey has Ed Garland's comments, but he probably doesn't have Mark Dortch's.
